

Naturfruit® -Olivo

NK LIQUID FERTILIZER. PLANT AND SOIL APPLICATION

GUARANTEED CONTENT

Total Nitrogen (N).....	3,0 % w/w (4,3 % w/v)
Urea Nitrogen (N).....	3,0 % w/w (4,3 % w/v)
Potassium Oxide (K ₂ O)	30,0 % w/w (43,5 % w/v)
EDTA.....	4,0 % w/w (5,8 % w/v)

Naturfruit-Olivo is a soluble liquid fertilizer containing a high Potassium concentration. The application is by fertigation or foliar spray during the steps of the cycle with higher Potassium exigencies. Thanks to its formulation Naturfruit-Olivo is easily uptaken by the olive tree tissues that need it, and it improves the quality of the fruits, increases the harvest, improves the oil content and the general condition of the plant

APPLICATION

Naturfruit-Olivo can be applied in every moment of the cycle as a Potassium source, but this product is specially indicated during the fruti growth.

DOSAGE

- FOLIAR SPRAY: 250-350 cc/Hl
- SOIL APLICATIONS: 30-40 l/ha with several applications

Harvest Enhancers

Potash is a macro nutrient. It is necessary all along the crop growth, but it is when the crop makes reserves when that needs are maximized.

Specifically if one want to obtain high yields of a high quality, potassium levels in the plant must be optimum.

With a great number of soils this is not easy to achieve using the traditional fertilizers.

The products that the Naturfruit Range includes have a high potash concentration and are formulated in order to optimise its uptake.
